1 Introduction

ATUM is an American Indian Government, operated and supported by ATUM BLOCKCHAIN Technology. ATUM's aim is to create the world's best platform to purchase, protect and Asset licensed digital assets, copyrighting, trademarking, American Indian Patents, Music, MP3, MP4, Data collection & monetization using Distributed Ledger Technology.

2 ATUM Overview

ATUM is an application that allows users to buy, sell and trade premium licensed, digital assets and other related virtual goods. Through the ATUM app, users can browse a multitude of different brands and categories to view and purchase digital assets, ATUM the official owner. Users can display their digital assets in their personal showroom and create custom scenes with their digital assets and props. Within a social feed users can share their digital assets, Gala and scenes with the ATUM Asset community, who can comment and show appreciation. The Augmented Reality feature lets users interact with their digital assets in the real-world and even show them on social media. Eventually through ATUM's in-app gameplay, assets will be able to interact with each other. Within the app, users can connect to a secondary marketplace, where they will be able to buy, sell and trade to other members of the community. All transactions within ATUM are carried out utilizing the ATUM token, which is used to purchase the digital assets and via staking, open access to premium features.

3 The Metcalfe Effect

As ATUM Asset is a platform targeting the mass market, Metcalfe's law (which states the value of a network is proportional to the square of the number of connected users of the system) will play a role in the growth of the user base. ^ Metcalfe's law in action – Two telephones can make only one connection, five can make 10 connections, and 12 can make 66 connections and so on. There are numerous positives associated with a growth of the ATUM user base, such as:

- Increase in the scarcity of ATUM digital assets (driving value)
- Increased liquidity of the ATUM token
- Increase in the number of staked ATUM tokens
- Increased activity in the secondary market
- Increased social activity across the ATUM Asset app
- Increased uptake of new (digital Assetible) releases.

A.T.U.M™

@atumtribe.io

+

4.1 Why Blockchain ?

•02

ATUM employs Blockchain / Distributed Ledger Technology in a number of ways to make the ATUM experience possible.

4.2 Non Fungible Token (NFT)

The digital assets offered through ATUM Asset are NFTs. The NFT standard allows for verifiable digital scarcity with a proven authenticity and an immutable proof of ownership. NFT's allow for more detailed attributes to be included, such as rich metadata about the asset and these authenticated details allow owners to be confident about the NFT's authenticity and provenance.

4.3 ATUM Tokens

In order to facilitate the purchase and trade of digital assets, ATUM Asset utilizes the ATUM token. There will only be a set number ATUM tokens minted, and these are purchased during the gestation, through the ATUM app, or on an exchange. The ATUM tokens will be a standard whereas the digital assets are (NFTs). When a purchase of an Asset is made, the ATUM tokens will be exchanged for the NFT. The NFT will be sent to the users ATUM app and become rightfully theirs, whilst the ATUM tokens used for the purchase are discarded to a locked address.

5.1 Scarcity

ATUM digital assets are released in a limited number of batches, called 'Series'. A Series may, for example, have ten thousand digital assets and within this Series the digital assets are divided across five rarity categories, ranging from 'Common', (representing 62% of the total) through to 'A-Rare' (representing 1%). The Blockchain and NFT standard is used to generate these limited number of digital assets.

A.T.U.MTM

@atumtribe.io

5.2 Counterfeit Protection

•03

A key advantage of using the Blockchain for digital assets is that each Asset is a uniquely generated asset that cannot be duplicated. Each digital Asset is recorded in the Blockchain and ties ownership directly to the verified owner.

5.3 Peer-to-Peer Transfer

To facilitate effortless buying, selling and trading of digital assets amongst users within the app, ATUM Asset leverages blockchain for the trustless transfer of digital assets between users. When a transfer happens, ownership is immediately transferred to the new owner and the previous owner will no longer have access to the digital Asset.

5.4 ATUM Asset

Assets have existed throughout human history and today they come in many forms. Currently the virtual goods market is valued at \$52 Billion annually and growing rapidly. We ourselves hold a reserve of gold, silver, precious stones, patent land, art, music and other various forms of DATA. ATUM token has arrived as traditional banking systems for investments have become stagnant. Investors really want to see their money work for them. Smart contracts and staking are a few features that secure assets in perpetuity.

6.1 Overview

ATUM is a cross-platform (mobile, desktop, web) application used for the delivery and storage of digital Asset content. It is a marketplace where users can buy, swap, sell and store digital assets in the form of digital Asset NFTs. The authenticity, scarcity and ownership of digital assets are managed using Distributed Ledger Technology.

A.T.U.MTM

@atumtribe.io

6.2 Technology

•04

Minting and Generation When new digital assets are created they are done so by minting a new NFT in our blockchain contract. Each NFT is provided with an associated URI which links that NFT to a set of metadata which includes the Asset name, licensor, brand, series and links to the NFT's various digital assets (such as clothing, props, etc). ATUM will host the publicly accessible JSON API containing the metadata for each NFT's URI.

Digital Exchange Platform and NFT Ownership After the minting of each NFT, the ownership is sent to an address assigned to ATUM for security and management on behalf of the owner. The ATUM Asset platform operates as a hybrid model whereby ATUM maintains ownership of all assets within the system, as is a common practice among digital exchange platforms. The ATUM Asset platform will maintain centralized ownership records as users buy, sell and trade NFTs. Additionally, all transactions in our system require signing authorization from either the user's app or their Asset Digital Hardware Wallet. This hybrid approach allows ATUM to provide users with a streamlined experience within the ATUM Asset app, while still leveraging the power of Distributed Ledger Technology for ATUM digital assets.

7.1 Onboarding

Registration is required to use and access the ATUM Asset app. /site To facilitate simple onboarding, ATUM Asset will offer Single Sign On Services with an option to sign up manually via email. During onboarding, the user will be prompted to indicate their preferences towards specific brands and interests, which is used as a basis for personalized content.

7.2 Token

The underlying economy of ATUM Asset is the ATUM Token. The token is needed for two reasons. Firstly, the sale and purchase of digital assets and secondly, access to extra features and benefits within the app, such as the 'Master Asset Program'. When a purchase is made using ATUM tokens, the tokens involved in the transaction are exchanged for the digital Asset and then expire. After a successful purchase the invalid ATUM tokens are sent to an inaccessible smart contract where they reside permanently. ATUM Asset users can acquire ATUM Tokens using a credit or debit card, or where applicable, via an in-app purchase. When via in-app purchases, the payment will seamlessly purchase an amount of ATUM tokens (determined by the user) and once the ATUMs are acquired they are used to purchase the digital Asset. This process happens entirely in the background.

A.T.U.M™

@atumtribe.io

8.1 Pricing

•05

Digital Asset pricing within the ATUM Asset app will be displayed in both fiat and ATUM tokens. As ATUM Asset targets the mass market, representing payment in familiar terms (fiat) is key for adoption. It is likely that over the natural progression of time the ATUM token value will fluctuate based on supply and demand. By pricing digital assets in fiat, ATUM can ensure any fluctuations in the ATUM token value will not affect the Asset price.

8.2 Store

From the Store section of the ATUM Asset app users can browse and purchase digital assets and physical assets. Within the store, the Assets are organized into categories and brands, with search and filter tools allowing users to easily find the content they seek. Each user has an intelligent store data profile which offers personalized content suggestions based on what they have viewed, purchased or interacted with. Users can purchase digital assets from the store using fiat or ATUM. When the purchase is completed the digital Asset is removed from the store and ownership is transferred to the purchaser.

8.3 Secondary Marketplace

In the ATUM Asset secondary marketplace users can connect, buy, sell, trade and put to auction their ATUM digital assets. When selling, the owner can choose how they want to sell the digital Asset either sell at a fixed price or via a seven-day auction, which requires a reserve (set by the seller) to be met, in order to complete the auction. Items in the marketplace can be added to the users personal watchlist so the activity can be monitored. Users can also make offers to swap or trade any item in the marketplace.

9.1 Digital Assets

Users can choose to inspect any individual Asset, whether in the store or secondary marketplace and view the information associated with it. This information can include the ownership history (previous owners usernames, with no identifiable information), purchase history, value over time, edition number, licensor and associated visual assets. Users can 'like' and comment on any digital Asset as well as share it in-app and on major social channels.

A.T.U.M™

@atumtribe.io

9.2 Master Asset Program

• 06

The Master Asset Program allows ATUM Asset users to gain access to extra features and benefits such as early access to digital Asset releases, limited edition assets, bonus ATUM tokens and more. To become a Master Asset, the user needs to hold (stake) ATUM tokens in a special section of their in-app wallet called The Unit. New users will start at 'level 1' Master Asset when they register. A user's Master Asset level is based on a number of factors and variables including the amount of ATUM tokens held in the user's wallet, purchase and sale history and in-app activity such as community votes and interactions. The primary actions a user can take to increase their Master Asset level are:

- Paid: A user can accelerate their progress through the levels, unlocking further features and benefits by purchasing and staking more ATUM tokens. in-app activity and then stake these earned tokens.

10 Wallet

Every ATUM Asset user has an in-app wallet that is generated during the account set up. The wallet can be accessed from within the ATUM Asset app and holds the users ATUM tokens and the digital assets they own. From within the wallet users can see their ATUM balance, staked token balance, purchase more ATUM tokens and view their transaction history. They can also see the associated digital hardware wallet if one has been paired.

11 Augmented Reality

A key feature of the ATUM Asset product suite is the Augmented Reality (AR) tools. Using this technology, ATUM Asset allows users to bring their ATUM digital assets out of the phone and project them into the real world, when viewed through the ATUM Asset mobile app. When viewing an ATUM Asset digital Asset in AR, the digital Asset is like a real world object – the user can move around it and view it from all angles. Using the AR, Also connecting to major brands to allow real time purchase in the AR that will be actual physical delivery to the user provide address / Drop location. ATUM Asset users can interact with their assets such as move them around the real world environment or engage in ATUM game experiences. In addition, users can customize their assets and decorate the surrounding area with props and accessories, then view (and share) these creations in AR also. Users will have the ability to scale the AR content to match their environment, whether that be a small size on a table top, or scaled up to fill an open outdoor area.

A.T.U.MTM

@atumtribe.io

ATUM Asset AR is placed into the real world in one of the following ways – on a flat surface (AR technology will locate and detect a flat surface and then place the AR elements on top), floating in space, on a reference point, or based on a geolocation.

12 GALA

Every ATUM Asset user has their own personal GALA – a place where they can present digital assets. A user can customize their GALA by choosing which digital assets to display, selecting a layout and adding background images. GALA can be made private or public. If public, the GALA can be viewed by other users within the ATUM Asset app, as well as shared across major social platforms. Other users can like and leave comments

13 Virtual Goods

As well as digital assets, virtual goods can also be added to the Scenes for greater customization. Virtual goods are any digital asset that is not a digital Asset, for example a glasses, plant, Watch, animation sequence, background image, etc. Virtual Goods are available both free and purchased (with ATUMs or fiat) and accessed from the Virtual Goods section of the Store and within the Scene Creator. Virtual goods are organized into categories and consist of generic content, which can be used in any Scene and licensed content, that is paired with specific digital assets or brands. All virtual goods are NFTs minted by ATUM and will be released in both high quantities and scarce, limited numbers. Assets in the Virtual Goods Store will be provided initially by ATUM and partners and in future releases ATUM aims to allow user generated content to be contributed and sold within the Virtual Goods Store also.

14 Gamification

ATUM Asset in-app gaming allows user to interact and play with the digital assets they own, creating a further level of engagement. A range of single and multiplayer game experiences can be played within ATUM Asset using the Augmented Reality features. ATUM Asset users gain access to game experiences based on the assets they own, for example, owning a digital Asset can grant access to play AR games, which can also be played multiplayer against other ATUM Asset users who own digital assets.

A.T.U.MTM

@atumtribe.io

As users play through the ATUM game experiences they can earn ATUM Tokens, experience points (Master Asset) and find ranges of common to secret-rare digital assets and virtual goods. ATUM aims to produce game content as bite-sized playable adventures which are released on a regular basis, both as generic to ATUM and in partnership with licensors.

15 THE GALA (SHOW WALL)

Within the ATUM Asset app, a social section called GALA allows the community to connect and interact with other ATUM Asset members.

On the Show Wall, users can share their digital assets, Scenes or items they are selling in the marketplace. The Show Wall will also display personalized content to the user's taste and interest. Users can choose to follow another ATUM Asset user (from the users GALA page) and will see this content any time that user shares something new. GALA offers ATUM Asset users a number of ways to show their appreciation for content posted (digital assets and scenes) by other member such as liking, commenting, sharing and also giving a 'tip' in ATUM tokens

16 Loss, Backup and Restoration

Security and restoration of private keys is extremely important and the ATUM Wallet has restoration capability. If owners lose their ATUM Wallet and / or their host device, their private keys will remain protected. During the setup of the ATUM Wallet, a Recovery Seed is generated within the app, as outlined in the explanation above. When the seed is generated, the user should copy this and place it in a safe location with the ATUM Wallet.

17 ATUM Token

17.1 Purchasing Tokens

As ATUM Asset is targeted to the mass market, it is of the upmost importance the onboarding and purchasing of ATUM tokens remains a task that can be easily carried out by consumers with zero knowledge or understanding of the blockchain and cryptocurrencies.

A.T.U.MTM

@atumtribe.io

To facilitate this, users will acquire ATUM tokens using credit or debit cards, or in-app purchases. When a purchase is made using ATUM tokens, the tokens involved in the transaction are exchanged for the digital Asset and then expire. After a successful purchase the invalid ATUM tokens are sent to an inaccessible smart contract where they reside permanently.

17.2 Token Metrics

The underlying economy of ATUM Asset is the ATUM Token. The prime focus of the ATUM token are as follows. First, the sale and purchase of secure digital assets. Secondly, as an ATUM token holder you will be granted access to extra features and benefits within the app itself. "The Master Asset Program" will feature early access on digital releases, limited editions and staking via "The UNIT" an integrated in app wallet.

When a purchase is made using ATUM tokens, the tokens involved in the transaction are exchanged for the digital Asset and then expire. After a successful purchase, the invalid ATUM tokens are sent to an inaccessible smart contract where they reside permanently.

- Total Supply – 100,000,000,000,000,000,000,000
- Available for Sale – 20,000,000,000,000,000,000,000 =20%
- ✓ ICO (Private Sale) 25% | 25,000,000,000,000,000,000,000 ATUM
- ✓ liquidity lock 70% for 1 year
- ✓ Business Development 20% | 20,000,000,000,000,000,000,000 ATUM
- ✓ Tribal Members 20% | 20,000,000,000,000,000,000,000 ATUM

Ticker Symbol ATUM Token Type ERC20

Hardcap 100,000,000,000,000,000,000,000

17.3 Use of Funds

- ✓ Acquisition – 20%
- ✓ Product Development – 20%
- ✓ Marketing Expenses – 15%
- ✓ Business Operation – 5%
- ✓ Legal Expenses – 2.5%

18 Risks And Disclaimers

•10

PLEASE READ THIS PART "RISKS AND DISCLAIMERS" CAREFULLY. IF YOU ARE IN ANY DOUBT AS TO THE ACTION YOU SHOULD TAKE, YOU SHOULD CONSULT YOUR LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S). By accessing the information set forth in this document or any part hereof, you represent and warrant to ATUM ("ATUM") that you unconditionally and irrevocably accept and agree with the following:

RESTRICTED TERRITORIES AND DISTRIBUTION

It may not be lawful in certain jurisdictions for individuals, or certain categories of individuals in other jurisdictions, to view this document. An individual who wishes to view this document must first satisfy himself or herself that he or she is not subject to any local requirements that prohibits or restricts him or her from doing so. In particular, unless otherwise determined by ATUM and permitted by the applicable law and regulations, it is not intended that any information contained in this document should be sent, directly or indirectly, in or into, countries where participating in Initial Coin Offerings are banned due to legal restrictions, and countries sanctioned by countries considered as high risk and monitored by the Financial Action Task Force ("FATF") (each, a "Restricted Territory") and nor should it be accessed by any individual who is a national citizen or resident of a Restricted Territory, including corporations, partnerships, or other entities created or organized in any such jurisdiction, unless they are exempted from the prohibition against participating in Initial Coin Offerings. ATUM shall not be responsible for individuals who access this document from territories whose laws prohibit such access or where any part of the document may be illegal. Such individuals do so at their own risk. The publication, distribution or dissemination of this Whitepaper does not imply that the applicable laws, regulatory requirements or rules have been complied with. This Whitepaper is not an advertisement, nor is it intended to be used to call for an offer on behalf of ATUM. Persons to whom a copy of this Whitepaper has been distributed or disseminated, provided access to or who otherwise have the Whitepaper in their possession shall not circulate it to any other persons, reproduce or otherwise distribute this Whitepaper or any information contained herein for any purpose whatsoever nor permit or cause the same to occur. This Whitepaper, any part thereof and any copy thereof must not be taken or transmitted to any country where distribution or dissemination of this Whitepaper is prohibited or restricted. No part of this Whitepaper is to be reproduced, distributed or disseminated without including this part "RISKS AND DISCLAIMERS".

19 NO AGREEMENT

No person is bound to enter into any contract or binding legal commitment concerning the sale and purchase of the ATUM Tokens and no cryptocurrency, or other form of payment is to be accepted on the basis of this Whitepaper.

A.T.U.MTM

@atumtribe.io

Any agreement in relation to any sale and purchase of ATUM Tokens (as referred to in this Whitepaper) is to be governed by only a separate document

setting out the terms and conditions (the "ATUM Token Sales Terms") of such agreement. In the event of any inconsistencies between the ATUM Token Sales Terms and this Whitepaper, the ATUM Token Sales Terms shall prevail.

20 NO ADVICE

This Whitepaper does not constitute or form part of any opinion on any advice to sell, or any solicitation of any offer by GAMPHACE to acquire any GAMPHACE Tokens nor shall it or any part of it nor the fact of its presentation form the basis of, or be relied upon in connection with, any contract or investment decision. You must conduct your own due diligence and ensure you comply with all local laws regarding cryptocurrency, tax, securities and other regulations in your jurisdiction. We encourage you to consult with the relevant professional advisors independently.

If any provision or part of any provision in this "RISKS AND DISCLAIMERS" part is or becomes invalid, illegal or unenforceable, it shall be deemed modified to the minimum extent necessary to make it valid, legal and enforceable. If such modification is not possible, the relevant provision or part-provision shall be deemed deleted. Any modification to or deletion of a provision or part of any provision under this "RISKS AND DISCLAIMERS" part shall not affect the validity and enforceability of the rest of this "RISKS AND DISCLAIMERS" part.

NO OFFER OF SECURITIES OR REGISTRATION This document is for information purposes only and does not constitute or form, and not intended to be, an offer or solicitation of an offer to buy or sell, subscribe for, underwrite or purchase any form of investment or securities or other financial instruments, nor shall it or any part of it form the basis of, or be relied upon, in any way in connection with any contract or investment decision relating to the same. It does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. No regulatory authority has examined or approved of any of the information set out in this Whitepaper. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of this Whitepaper does not imply that the applicable laws, regulatory requirements or rules have been complied with.

21 DISCLAIMER OF LIABILITY

•12

In no event shall either ATUM, or any of their respective current or former employees, officers, directors, partners, trustees, representatives, agents, advisors, contractors, or volunteers be liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with:

- (i) Any acceptance of or reliance on this Whitepaper or any part thereof by you;
- (ii) Any failure by ATUM, any of its affiliate companies or third party contractors or licensors to deliver or realize all or any part of the project described in or envisaged in this Whitepaper;
- (iii) Any information contained in or ATUM from this Whitepaper;
- (iv) Your use or inability to use at any time the services or products or ATUM Tokens offered by ATUM,
- (v) Mistakes or errors in code, text, or images involved in the ATUM Token sale or in this Whitepaper; or
- (vi) Any expectation, representation or warranty arising (or purportedly arising) from this Whitepaper;
- (vii) The purchase, use, sale, resale, redemption, or otherwise of the ATUM Tokens; or
- (viii) The volatility in pricing of ATUM tokens in any countries and/or on any exchange or market (regulated, unregulated, primary, secondary or otherwise);
- (ix) Any security risk or security breach or security threat or security attack or any theft or loss of data including but not limited to hacker attacks, losses of password, losses of private keys, or anything similar; and
- (x) Your failure to properly secure any private key to a wallet containing ATUM Tokens.

22 NO REPRESENTATIONS AND WARRANTIES

All information is provided without any warranties of any kind and ATUM, its employees, officers and/or advisors do not make or purport to make, and hereby disclaim, any express or implied representation, warranty or undertaking in any form whatsoever to any entity or person, including any representation, warranty or undertaking in relation to the truth, accuracy and completeness of any of the information set out in this Whitepaper. This Whitepaper and the ATUM Tokens are provided on an "as is" basis and without any warranties of any kind, either expressed or implied. Each of ATUM, its employees, officers and/or professional advisors assumes no responsibility or liability to you or any third party for the consequence of reliance on such information, errors or Admissions in such information or any action resulting therefrom. You assume all responsibility and risk with respect to your use of the Whitepaper and purchasing of any amount of ATUM Tokens and their use.

23 CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

•13

These forward-looking statements, including but not limited to statements as to ATUM's revenue and profitability, prospects, future plans, other expected industry trends and other matters discussed in this Whitepaper regarding ATUM are matters that are not historical facts, but only predictions. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results, performance or achievements of ATUM to be materially different from any future results, performance or achievements expected, expressed or implied by such forward-looking statements. These factors include, but are not limited to:

- (a) The risk that ATUM may be unable or execute or implement their respective business strategies and future plans;
- (b) Risks and uncertainties associated with ATUM and its businesses and operations, the ATUM Tokens, the ATUM Initial Token Sale, and the Secure Wallet (each as referred to in the Whitepaper).
- (c) Changes in the future capital needs of ATUM and the availability of financing and capital to fund such needs;
- (d) Changes in political, social, economic and stock or cryptocurrency market conditions, and the regulatory environment in the countries in which ATUM conducts its respective businesses and operations;
- (e) Changes in interest rates and exchange rates of fiat currencies and cryptocurrencies;
- (f) Changes in the anticipated growth strategies and expected internal growth of ATUM and/or their respective affiliates;
- (g) Changes in the availability and fees payable to ATUM in connection with their respective businesses and operations;
- (h) Changes in the availability and salaries of employees who are required by ATUM and to operate their respective businesses and operations;
- (i) Changes in preferences of customers of ATUM;
- (j) Changes in competitive conditions under which ATUM operate, and the ability of ATUM to compete under such conditions;
- (k) War or acts of international or domestic terrorism, occurrences of catastrophic events, natural disasters and acts of God that affect the businesses and/or operations of ATUM, and other factors beyond the control of ATUM.

A.T.U.M™

@atumtribe.io

All forward-looking statements made by or attributable to ATUM or persons acting on behalf of ATUM are expressly qualified in their entirety by such factors. These forward-looking statements are applicable only as of the date of this Whitepaper, and nothing contained in this Whitepaper is or may be relied upon as a practice, representation or undertaking as to the future performance or policies of ATUM, or in relation to the truth, accuracy and completeness of any of the information set out in this paper. The actual results, performance or achievements of ATUM may differ materially from those anticipated in these forward-looking statements. Whilst ATUM intends to fulfil all the goals set out in this document, in case of unforeseen circumstances, the goals may change or may not be achieved without any notice to you. Neither ATUM or any other person represents, warrants and/or undertakes that the actual future results, performance or achievements of ATUM will be as discussed in those forward-looking statements.

Further, ATUM disclaim any responsibility to update any of those forward-looking statements or publicly announce any revisions to those forward-looking statements to reflect future developments, events or circumstances, even if new information becomes available or other events occur in the future, except to the extent required by law.

THIRD PARTY INFORMATION AND NO CONSENT OF OTHER PERSONS

This Whitepaper includes information obtained from various third party sources ("Third Party Information"). None of the publishers of Third Party Information has consented to the inclusion of Third Party Information in this Whitepaper and is therefore not liable for Third Party Information. While ATUM have taken reasonable actions to ensure that the information is extracted accurately and in its proper context, ATUM have not conducted any independent review of the information extracted from third party sources, verified the accuracy, timeliness or completeness of such information or ascertained the underlying economic assumptions relied upon therein. Consequently, neither ATUM nor any of its respective directors, executive officers and employees acting on their behalf makes any representation or warranty as to the accuracy or completeness of such information and shall not be obliged to provide any updates on the same.

24 NO ADVICE

No information in this Whitepaper should be considered to be legal, business, financial or tax advice regarding ATUM, the ATUM tokens, the ATUM Initial Token Sale, and the Secure Wallet (each as referred to in the Whitepaper). You should consult your own legal financial, tax or other professional adviser regarding ATUM and their respective businesses and operations, the ATUM tokens, the ATUM Initial Token Sale and the Secure Wallet (each as referred to in the Whitepaper).

A.T.U.MTM

@atumtribe.io

You should be aware that you may be required to bear the financial risk of any purchase of ATUM tokens for an indefinite period. You must conduct your own due diligence and ensure you comply with all local laws regarding cryptocurrency, tax, securities and other regulations in your jurisdiction.

25 NO FURTHER INFORMATION OR UPDATE

No person has been or is authorized to give any information or representation not contained in this Whitepaper in connection with ATUM and its respective businesses and operations, the ATUM Tokens, the ATUM Initial Token Sale, and the Secure Wallet (each as referred to in the Whitepaper) and, if given, such information or representation must not be relied upon as having been authorized by or on behalf of ATUM. The ATUM Initial Token Sale (as referred to in the Whitepaper) shall not, under any circumstances, constitute a continuing representation or create any suggestion or implication that there has been no change, or development reasonably likely to involve a material change in the affairs, conditions and prospects of ATUM or in any statement of fact or information contained in this Whitepaper since the date hereof.

26 RISKS AND UNCERTAINTIES

Prospective purchasers of ATUM Tokens (as referred to in this Whitepaper) should carefully consider and evaluate all risks and uncertainties associated with ATUM, and their respective businesses and operations, the ATUM Tokens, the ATUM Initial Token Sale and the Secure Wallet (each as referred to in the Whitepaper), including all information set out in this Whitepaper prior to any purchase of ATUM tokens. If any of such risks and uncertainties develops into actual events, the business, financial condition, results of operations and prospects of ATUM could be materially and adversely affected. In such cases, you may lose all or part of the value of the ATUM tokens. The regulatory status of cryptographic tokens, including any digital currency, digital assets and blockchain applications is unclear or unsettled in many jurisdictions. The publication and dissemination of this document do not imply that any relevant laws, regulations and rules have been complied with. No regulatory authority has examined or approved this document. Where any relevant governmental authority makes changes to existing laws, regulations and/or rules, or where financial institutions make certain commercial decisions, it may have a material adverse effect and/or impair the ability of any relevant entity referred to in the document to function as intended, or at all. There are risks involved in the technologies relating to the Ethereum blockchain, and the ATUM tokens, such as unforeseen bugs, security issues or disruptions.

A.T.U.MTM

@atumtribe.io

By way of the above and other factors not within our control, the entire sum used to purchase the ATUM tokens may be lost. ATUM may contract with third parties to develop and license their products and/or technology for use within the ATUM Ecosystem. While ATUM will take all commercially reasonable steps to secure the necessary rights and licenses, there are risks and uncertainties associated with the business and operations of such third party contractors that are beyond ATUM's control and they may not deliver on the products and/or technology. There is also a risk that ATUM does not succeed in obtaining and/or renewing the necessary rights and licenses to such third party products and/or technology mentioned in this Whitepaper. Such events may have a material adverse effect on the function, deployment and use of the ATUM Ecosystem as intended. This Whitepaper does not identify, or claim to identify, all the risk factors connected with ATUM and its businesses and operations, the ATUM Tokens, the ATUM Initial Token Sale, and the ATUM Wallet (each as referred to in the Whitepaper). The disclaimers set out above are not exhaustive. A more comprehensive list will be set out in other documents that may be published by ATUM from time to time. You must make your own independent evaluation, after making such investigations as you consider essential, of the merits of participating in the Token Sale and after obtaining your own independent professional advice. To the fullest extent possible, ATUM shall not be liable for any responsibility, liability, claims, demands and/or damages (actual and consequential) of every kind and nature, known and unknown (including, but not limited to, claims of negligence), arising out of or related to any acceptance or reliance on the information set forth in this document by you.

27 TERMS USED

To facilitate a better understanding of the ATUM Tokens being offered for purchase by ATUM, and the businesses and operations of ATUM, certain technical terms and abbreviations, as well as, in certain instances, their descriptions, have been used in this Whitepaper. These descriptions and assigned meanings should not be treated as being definitive of their meanings and may not correspond to standard industry meanings or usage.

Words importing the singular shall, where applicable, include the plural and vice versa and words importing the masculine gender shall, where applicable, include the feminine and neuter genders and vice versa. References to persons shall include corporations.
